

Retroseal Eaveseal

I.P. protected

Much like Houseseal, except is a commercial and industrial metal eave filler made in a variety of long spanning roof sheet profiles that acts as a weatherproof, vermin proof and deters the entry of embers and sparks to the roof cavity without the problems of other sponge products and can be fitted to new and existing buildings,

Available in Surfmist and Dove grey (the same as the back of the Colorbond sheet)
Nominate maker and roof sheet profile name.

Add roof pitch to back of order code in brackets. See inside back page.
